

## Job posting

### Security technician in the field of alarm and early fire detection technology (m/f/d)

Location: Chemnitz | Full-time | Z&K GmbH

August 1, 2025

If you are looking for a new challenge and have quick comprehension and organizational skills, then join ZUKOS! With the help of our training courses, we will make you one of the best security technicians in our company! Career changers who are looking for a new professional direction are also very welcome!

### Who we are

ZUKOS stands for forward-looking security solutions – from intelligent burglary and video technology to state-of-the-art early fire detection and extinguishing systems. As an innovative full-service provider, we secure industrial and commercial premises throughout the DACH region – with our own technology, our own control center (VdS-certified), and a growing team of around 70 employees.

We have been on a strong growth course since 2014: with over 25,000 components installed, over 2,500 customers, and numerous industry solutions for recycling companies, logistics companies, car dealerships, cement plants, and more, we stand **for technological excellence, responsibility, and tailor-made systems** – from planning to commissioning.

### Your tasks

- Germany-wide installation of security technology such as video alarm technology, thermal cameras, and extinguishing systems (installation of cameras, laying power and network cables, working on switch cabinets, etc.)
- Performing maintenance on existing security systems
- Dismantling security technology
- Documentation of the activities carried out in the company's internal system
- Providing technical support
- Service calls to customers
- Customer communication

## Your profile

- Training or experience in the field of electrical engineering is advantageous but not essential
- Electrical engineering knowledge and manual skills
- Class B driver's license
- Willingness to travel extensively (Monday-Friday)
- Very good written and spoken German
- Ability to work independently, initiative, and willingness to learn
- Reliability and sense of responsibility
- Customer-friendly manner
- Police clearance certificate with no entries

## What we offer

- A secure job in a growing and innovative company.
- Your own company vehicle, free parking, company phone, and high-quality tools.
- Structured training and personal development opportunities.
- Project planning with modern technology.
- An open corporate culture, a friendly working atmosphere, and flat hierarchies.
- A varied job in a dynamic and collegial environment.
- Flexible working hours.
- Attractive remuneration + employee benefits.
- Water and a fully automatic coffee machine are available free of charge.
- Employee events and a strong team spirit.

## Your contact

**Sarah Lerch**
